

INTELLIWORX®

We Design Intuitive Solutions to
Complex Process Challenges

The Problem

21st Century IDEA guidance is near. Government agencies must move to digital, mobile-friendly solutions, with accessibility at the forefront. Manually managed business processes that require chasing after paperwork cause lost time, duplication of efforts, physical waste, and other major inefficiencies.

The Solution

Streamline complex business processes with our powerful suite of workflow automation tools. We are Paperwork Reduction Act and 21st Century IDEA compliant. Collect info once with intelligent automated interviews. Requirements, compliance, and ethics are baked into the workflow. Do everything through an easy-to-use, easy-to-understand dashboard.

Key Features and Benefits

- ▶ Intelliworx creates secure, cloud-based workflow management apps, such as **Financial Disclosure**, **Application Management System**, and **Workforce Management**.
- ▶ We build SaaS platforms in use by the U.S. Federal government. FedRAMP Authorized with VA ATO plus 29 other Agencies.
- ▶ Centralize document storage and manage complex business workflow processes from end-to-end.
- ▶ Our unique form mapping capabilities can take an existing document, map it completely, and convert it to data to be used to build intelligent interviews.
- ▶ Intelligent interview workflows are easy to understand for all users and are comprehensive and efficient for Reviewers and Approvers.
- ▶ Mobile-first. 21st Century IDEA and Section 508 compliant. Fully accessible. Simple, seamless, and secure.
