

The Problem

Managing the recruiting, hiring, onboarding, and credentialing of new employees requires time, effort, and expense. Identifying, engaging, and processing qualified candidates and completing and maintaining credential requirements is challenging without access to a comprehensive solution.

The Solution

Intelliworx Healthcare Workforce Management helps you efficiently manage candidates through the complete recruiting and onboarding life cycle, with initial and continuous credential management. Experience increased time-savings. Allow new providers to start seeing patients and generating revenue faster.

Key Features and Benefits

- ▶ Manage the entire Hospital Position lifecycle without the complexity and cost tied to a large enterprise system.
- ▶ Mobile first platform. 21st Century IDEA and Section 508 compliant. Fully accessible. Simple, seamless, and secure.
- ▶ Access everything through an easy-to-use dashboard designed to be efficient and user-friendly for Candidates, Recruiters, Human Resources, Supervisors, Senior Leadership.
- ▶ Provides a centralized location for all internal offices to store documents digitally.
- ▶ Access the tools needed to reduce recruiting time and minimize reliance on third-party recruiters to find physicians.
- ▶ Track candidates as they move through the hiring process. Minimizes the necessity for time-consuming follow-up.
- ▶ Decrease time to hire and allow providers to start work faster.
- ▶ Everything necessary to initiate and maintain the credentialing process is collected, avoiding any gaps in the provision of medical care services due to lapsed licensure.
- ▶ Prioritized commitment to security and data protection.
